CRAFTING EXCELLENCE

# THE ULTIMATE QUALITY EXPERIENCE

Imagine padel courts as more than just a place to play, but expressions of technology and innovation.  
An experience that extends far beyond the court lines.

*Reserve*

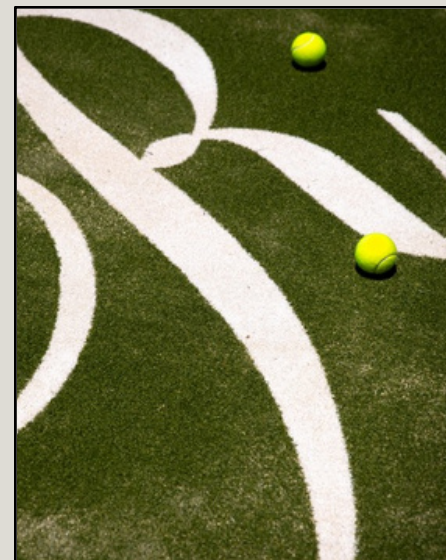

*t Reserve Courts, excellence isn't just a standard—it's the foundation of everything we do. From the materials we use to the experience we create, every detail is designed to meet the highest level of performance. As we continue to expand to new verticals, our commitment remains the same: to elevate the sport of padel and set a new benchmark for quality.*

**Wayne Boich, Founder & CEO of Reserve**

**Every rally, every moment on court—it's more than a game. It's a pursuit of excellence.**

This passion is what brought us here, and it's what drives us forward. **Reserve Courts** is redefining the sport, elevating every detail while staying true to the heart of padel. From our courts to the communities we build, we're setting a new standard—one that reaches beyond the game, worldwide.

# PADEL COURTS BEYOND LIMITS

With extensive global experience in padel court construction, Reserve combines cutting-edge technology with expert craftsmanship to set a new standard. Each court is a testament to innovation, precision, and performance.

# FULL VISION PADEL IN HIGH DEFINITION.

Our Full Vision padel court is designed to maximize sightlines and elevate the playing and viewing experience. With a clean, open structure and increased transparency around the perimeter, it delivers clearer visibility for players and spectators, creating a more immersive feel on and off the court.

# TOURNAMENT

## WHERE CHAMPIONS ARE BORN

Our Tournament-level padel court is built to meet the demands of elite competition. Designed to professional standards, it delivers consistent play, maximum durability, and a highly stable structure for high-intensity matches. With optimized lighting, clear sightlines, and a clean, performance-first layout, this court creates a true championship environment for players, spectators, and broadcast.

# EVERY DETAIL MATTERS.

Experience the essence of quality in every element. From the meticulously crafted structure to the best in class glass walls or the innovative net system, each element stands as a game-changing feature, defining a new standard in padel court construction.

## ENTRANCE

Our padel courts offer a symmetrical design, with access points on both sides, ensuring a balanced and robust structure while adhering to safety standards and regulations. If required, one side can be closed off.

## SIDE METAL MESH FENCE

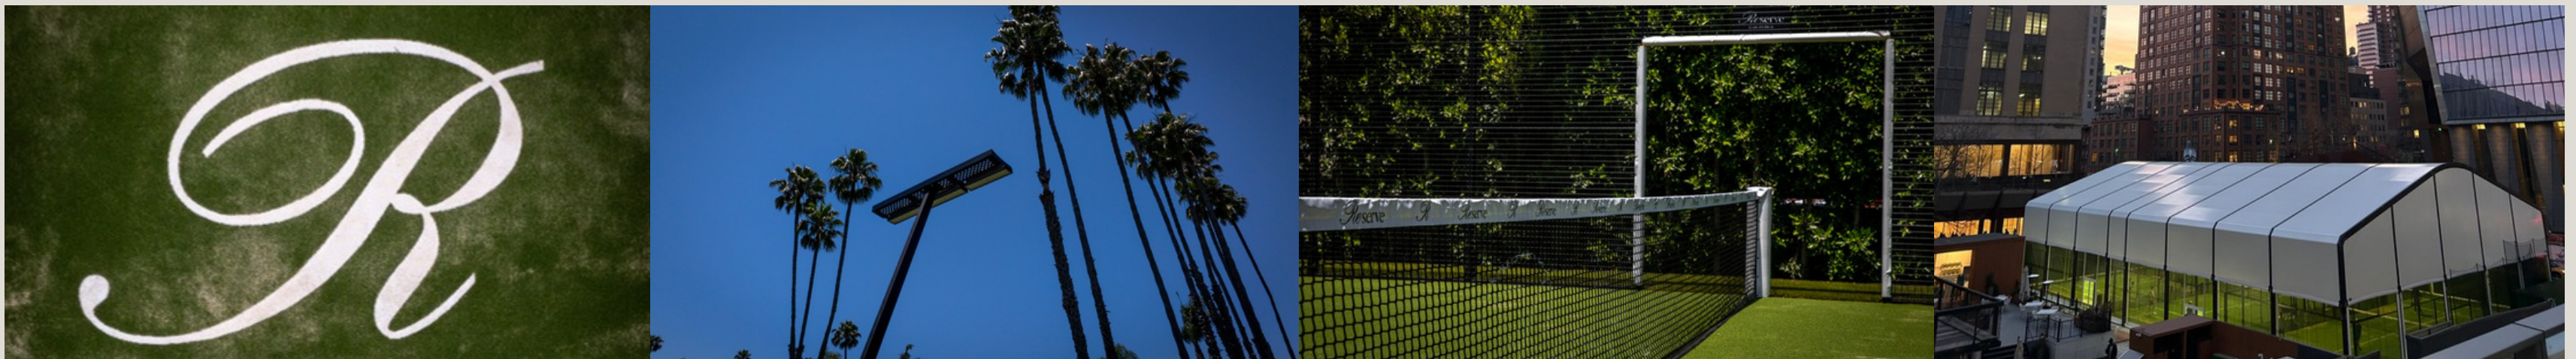

Our unique mesh system is the only one in the market to guarantee a continuous playing surface within the whole court, and a non-deformable structure, while simplifying assembly and replacement, making it one of our identity signs.

## GLASS

Our courts feature 12mm tempered glass, carefully chosen to adapt for the different needs of each project. Using bushings and anti-vibration neoprene bands we minimize breakage risks, also enhancing impact resistance and temperature durability.

## STRUCTURE

Our padel court structures are uniquely designed and manufactured, setting us apart from competitors. We only use hot dip galvanized steel and two layers of powder coating to ensure a C3 protection against corrosion.

## GRASS

We pioneered the introduction of texturized grass, setting a new industry standard. We specialize in three grass visibility and reducing glare with asymmetrical lenses. We use the best in-class grass on the market and texturized turf to reduce glare on our courts.

## LIGHTING

Our LED lighting system uses 500 Lux for premium illumination, and 1,000 Lux, ideal for competitive matches and broadcast scenarios.

## NET SYSTEM

Our nets are made of durable UV-protected polypropylene mesh to ensure maximum quality and protection against weather conditions. Moreover, our unique net tensioning system allows for easy manipulation and re-tension.

## COVERS

Our self-supporting or textile roofs enable year-round padel court use regardless of weather conditions. We ensure a comfortable and secure playing environment 365 days per year.

## IT'S ALL ABOUT QUALITY

Our commitment to quality goes beyond padel court construction. We serve as an extension of your team through every step of the installation process.

*Full Vision Court*

**CONSULTING**

Our dedicated team is here to assist you in assessing the technical and financial feasibility of your project.

**CUSTOMIZATION**

Make every part of the padel court uniquely yours: metal elements, colors, textures, logos, etc.

**MANUFACTURING**

We maintain absolute control throughout the process with our manufacturing partner.

**PARTNERSHIP**

We collaborate with the best in the industry, from software companies to material providers, to ensure the success of your project.

**INSTALLATION**

Courts are shipped from the factory to the site of the project where our team handles all facets of the build.

**MAINTENANCE**

We provide complimentary maintenance for the first year to ensure your court remains in peak condition.
